

YT CPA DOMINATION

By Bani

First, I want to thank you for downloading my eBook, and I want to make you the promise now, that you **WILL MAKE MONEY FROM THIS**. This method is guaranteed to work for anyone. I have generated tons of income with this. I've been making at least \$2k a month off this method alone, and it's extremely easy.

Ok, I'm just going to get right into it now so today I'm going to be teaching you how to make tons of cash via YouTube.

I'll give you a brief overview of the method, and I urge that you read till the end so you can see all the pro tips before starting the method.

Basically, you're going to be signing up to a CPA network, choosing your landing page, setting up all of your google plus profiles, make a unique post on all of them, then you're going to take the link, and reply to two top comments on one video. After that you just switch accounts and reply to two more comments, and that's it.

THE METHOD

Step 1 : Sign up for a CPA Network.

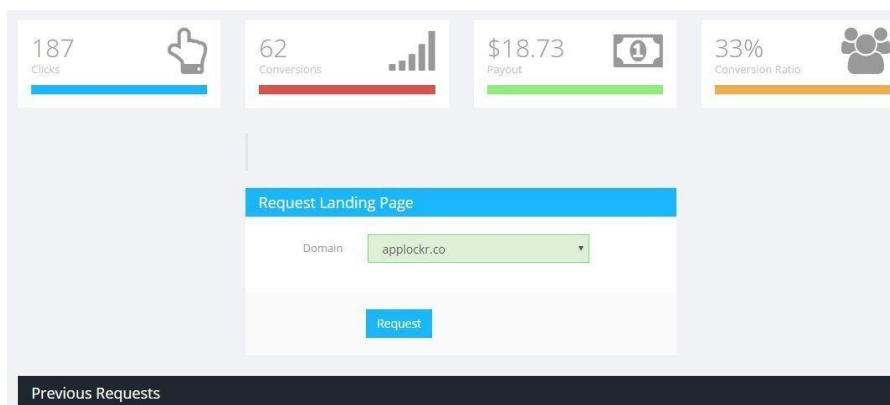

You're going to need to sign up with a CPA Network. These will be the people that are paying you. If you don't know what CPA means I'll explain it to you briefly. "Cost Per Action" is basically when you get a user to complete a survey, or download an app. You get paid .25 to \$1 everytime you get a user to successfully complete a survey or download an app. Now imagine you get at least 100 people a day to do this. That's \$50-\$100 a day. If you need a more in depth description there are plenty of things to read on google. Ok, now you should sign up with my preferred network [HERE](#) . It however is up to you whether or not to use this network. When signing up make sure to use VALID INFORMATION. When you're specifying your traffic source say you're using Youtube, Social Networks and Paid Advertising, this will help you to get accepted faster. These guys are 100% reputable. They won't do anything with your information so make sure to enter it correctly. They'll usually accept you within 12 hours so far they're impressed with your application which is really not hard to achieve.

[SIGN UP HERE](#)

Step 2 : Get your landing page

Ok, now you're going to be getting your landing page. After you've been accepted to the network click [HERE](#) to go to the landing page request tab. This is basically the landing page that you're going to be linking to the people. They are going to go to this link and download your apps or complete your surveys. The pages that they offer are stuff like "free gift cards", "free clash of clans gems", and "instagram followers". To get what you're "offering" they need to complete your offer. You're basically going to be linking the user these via YouTube comments, and to unlock the content on the page they have to install an app or complete a survey. You're basically going to click on the dropdown below and select the landing page you want to promote then hit request. Just wait for it to be activated(should only take a few minutes) then you can start the next step.

Note: I don't recommend using the OGAds landing pages due to heavy saturation. I recommend you to pay close attention to Pro Tip #7 which is located at the bottom of the guide. The Page

The screenshot shows a dashboard with four performance metrics at the top: 187 Clicks (with a hand icon), 62 Conversions (with a bar chart icon), \$18.73 Payout (with a dollar bill icon), and 33% Conversion Ratio (with a group of people icon). Each metric has a corresponding colored progress bar. Below these is a form titled "Request Landing Page". The form has a "Domain" label and a dropdown menu currently showing "applockr.co". At the bottom of the form is a blue "Request" button. Below the form is a dark grey bar labeled "Previous Requests".

(Yeah, I know my earnings are low for that day it was early in the day lol)

Step 3 : Get your YouTube PVA Accounts

I'd recommend starting out with the purchase of 20 accounts now, and then using more.

Contact me for recommendations on how to purchase or just check seoclerks. However ensure that you get quality accounts. Don't worry, it's really cheap.

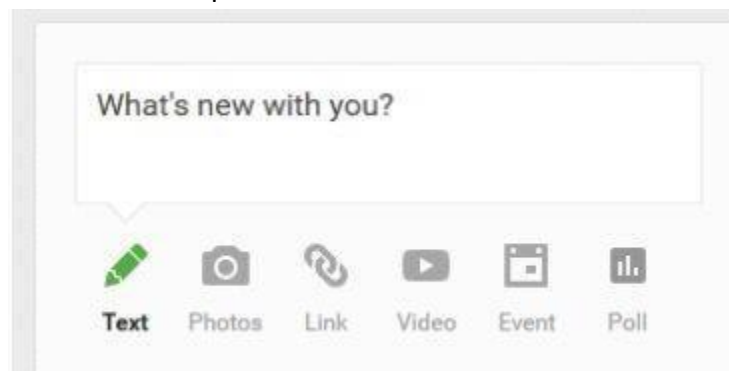

Step 4 : Setting up the accounts profiles

Ok, now that you have the profiles it's time to set them up. Click [HERE](#) to open Google Plus. Now you're going to give the profile a picture, and a name related to the landing page you chose above in step 2. (My example is Clash Royale themed because it's one of the most commonly used).

Here's an example:

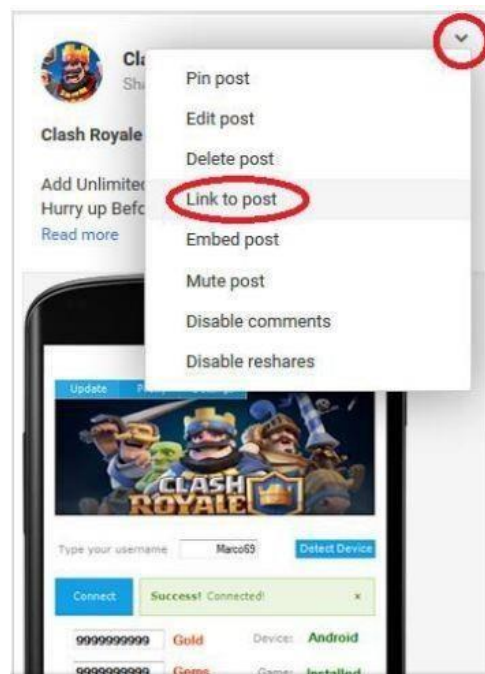

Now go to this box to create a new post:

Now make an enticing description and put the link to the landing page in the post that you received in step 2. I will however advise that you cloak this link by getting cheap domain and hosting [HERE](#) this is however optional but recommended .(my link is in the read more section of the post so don't forget to put the link. It is the most important part.) If you can find a good picture to upload in the post go for it:

Grab the link to your post:

Alright, now this is the most important part of the method. This is also where my method becomes unique. So basically what I'm about to tell you to do stops your comments from getting "ghosted". When you post without this method your comments won't show up to all of the users. It's extremely simple, **BUT IT IS 100% NECESSARY TO BEING SUCCESSFUL WITH THIS METHOD.**

Example link to your post <https://plus.google.com/EXAMPLE>

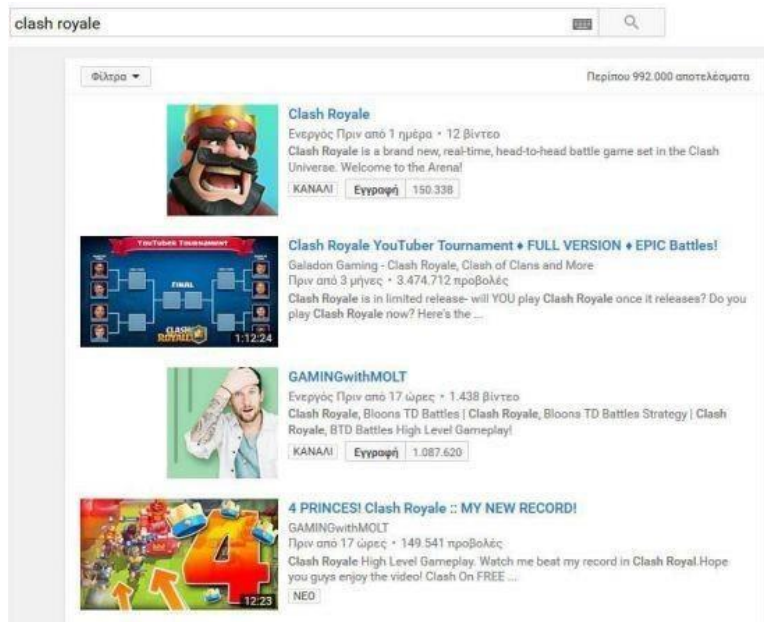

What you need to change(add the u/0/) <https://plus.google.com/u/0/EXAMPLE>

Now remove the https:// plus.google.com/u/0/EXAMPLE

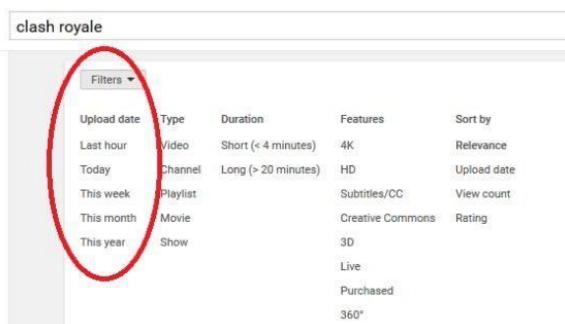

Adding the /u/0/ is going to prevent the comments you post from getting ghosted. The final link is the one you are going to be spreading in the comments.

Step 5 : Find the YouTube videos you're going to post on

Now you're going to search YouTube for videos pertaining to your niche.

Now go to the filters, and look for videos uploaded in the hours, today, or weekly. Recently uploaded videos tend to get a lot of views quicker which means that more people will see your comments.

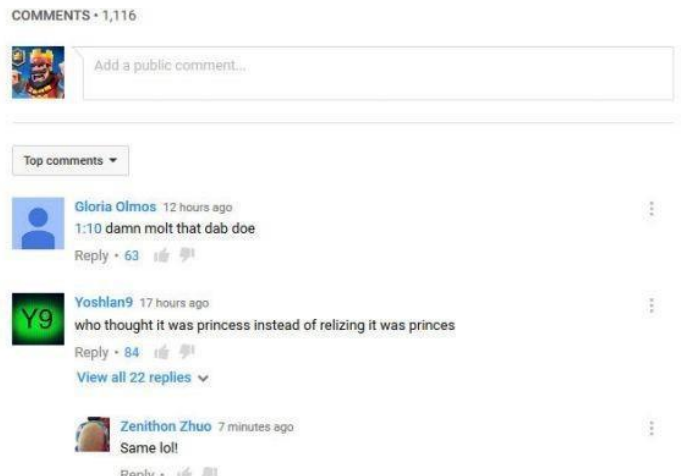

Ok, now that you've picked out your videos it's time to post the comments.

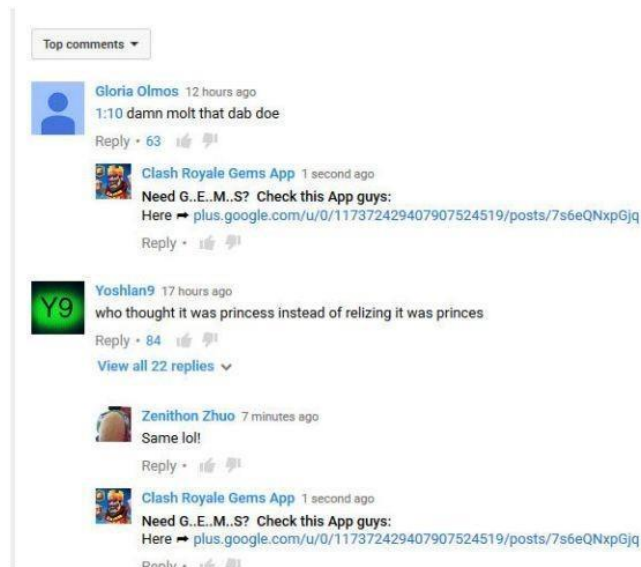

You're going to post 2 comments then move onto the next account. After you go through all the accounts you can restart the process and do it again. You're going to post 2 comments per YouTube video as well. That means for each account you should be finding a new video.

You're not going to actually post a comment, but you're going to reply to the already top comments to ensure that yours stay at the top.

BEFORE

AFTER

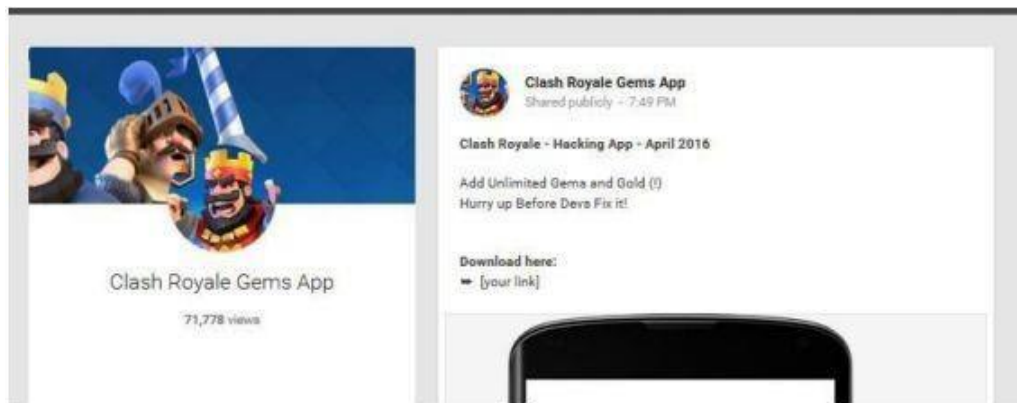

So, in conclusion, you're going to be signing up to the CPA network, choosing your landing page, setting up all of your google plus profiles, make a unique post on all of them, then you're going to take the link, and reply to two top comments on one video. Then you just repeat the process with the next account!

Now it's time to give you the Pro Tips. Make sure to read these over to increase your earnings.

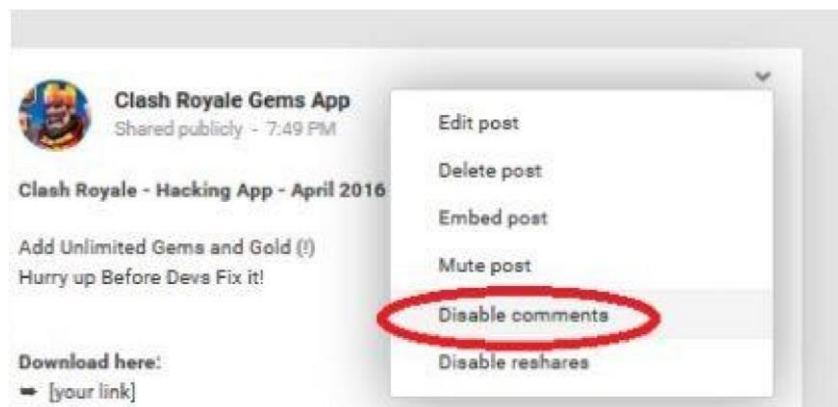

TIP 1

You can place a google profile background so your post looks more legit.

TIP 2

You can add some fake comments with your other Youtube Accounts that say thanks, this is legit, wow great generator, etc. After that you can disable the comments to stop people from commenting negative things.

TIP

3

You can incase your text in * * which will make it bold, or you can incase it in __ and that will make it italic. I strongly urge you to do this because it will make the text look much more attractive to the user and they will be more likely to complete your offer.

TIP 4

There are plenty of symbols you can add to your post to make it much more appealing to the user. Get the symbols [HERE](#)

TIP 5

If the video has more than 1 million views you can only post one comment. If you do more than your comments will not be visible.

TIP 6

You can check to see if your comment was posted by opening another browser and going to the video. This will help you make sure your comments aren't getting ghosted.

TIP 7

Choosing an unsaturated niche is VITAL to your success. The niche I used above was strictly an example. If you use something like Clash Royale it will be hard to earn now due to the fact that there are so many people doing it. It's always better to be using an unsaturated niche due to the fact that there is low competition and much more room to earn. If you want to find a good source for unsaturated and low competition niches, use search for and use kwfinder

TIP 8

The more accounts you have the more money you'll make. I recommend reinvesting your earnings into more accounts to earn even more money.
